Air Quality Forecast for the UK

Issued by the Met Office

Today: Air pollution levels are mainly expected to be Low across the UK today. However, due to light winds isolated patches of Moderate are possible, most likely in urban centres or near busy roads.

Tomorrow: Low levels of air pollution levels are generally expected to continue across the UK on Friday, but isolated patches of Moderate are still possible due to light winds, most likely in urban centres or near busy roads.

Outlook: Predominantly Low levels of air pollution are likely to continue on Saturday, but once again isolated pockets of Moderate are possible. However on Sunday and Monday strong winds and spells of rain should mean that air pollution levels will be more definitively Low. .
